

# UTILITY VEHICLES

UV34, UV34XL

Machine: UV34

# ALL-OUT PERFORMANCE FOR WHEN YOU'RE ALL ABOUT THE WORK

If you're reading this, there's a good chance that, to you, high performance means carrying heavy loads, hauling people, moving supplies and equipment, or clearing a path through a heavy snowfall. To put it another way, you need a utility vehicle for getting things done.

If that's the case, Bobcat® utility vehicles are made for people like you.

Built for hard work from front to back and top to bottom, these machines are the only utility vehicles fit to wear the Bobcat brand. They deliver fast-moving transportation, heavy-hauling ease of use and pure work-focused performance that take productivity higher.

When you need work-focused performance, look to the hardest-working brand on the planet: Bobcat.

## WHAT BOBCAT PERFORMANCE MEANS TO YOU:

### HAUL

A Bobcat utility vehicle can carry up to 1,250 pounds; that's nearly as much as a pickup. The 2-inch receiver hitch on Bobcat utility vehicles can easily tow up to 2,500 pounds of trailered equipment and materials.

### TRANSPORT

For a fraction of the price of a pickup, you can easily transport passengers around jobsites in a Bobcat utility vehicle. Some models allow up to five passengers in addition to the operator. If there's no road or limited access to the job, a utility vehicle works perfectly.

### USE ATTACHMENTS

Add attachments, such as the optional snow blade or spreader, and get the job done from the comfort of your optional enclosed cab.

# MODEL OVERVIEW

Machine: UV34

# THE BOBCAT UV34 & UV34XL

The Bobcat UV34 and UV34XL set standards for work vehicles – from their efficient, powerful performance to their incredible durability and ease of use.

35 MPH TOP SPEED

# UV34 & UV34XL HIGHLIGHTS

### PROVEN ENGINE DURABILITY

The engine in our gas utility vehicle features high-performance power for the job, and it's designed for maximum durability against dust, debris and other harsh realities of the job.

Bobcat diesel utility vehicle engines are proven-reliable workhorses. They're designed to deliver high performance in challenging working conditions.

### STRONG CHASSIS

A rigid chassis ensures superior work performance, durability and towing capacity. It also offers high ground clearance.

### CLEAN AIR INTAKE

Intake design provides clean airflow to the engine.

### INDEPENDENT FRONT AND REAR SUSPENSION WITH SWAY BAR

The suspension system provides a great combination of work performance and comfort.

### COMFORTABLE INTERIOR CAB SYSTEM

The cab offers ample creature comforts and intuitive operation. Convenient customization allows for a wide range of accessories and configuration options.

### COMMON TIRES AND WHEELS

Save time when replacement tires are needed. A uniform tire and rim size allows interchangeability and more uptime.

# MADE TO POWER YOUR ACHIEVEMENT

Machine: UV34

Bobcat utility vehicles have massive capacities for remarkable productivity, so you can carry more equipment, bring more help along for the job, and save hours of manual labor.

## STRONG CHASSIS

The chassis on both the standard and XL utility vehicles gives comfort, strength and performance for the job. The chassis is designed for high ground clearance and off-road capability. The range of motion in the suspension provides superior ride quality, too.

## ENGINES

Confidently take on the job with gas- or diesel-powered performance.

**Gas:** Gas models include a 1000cc, two-cylinder SOHC engine with a generous 39.9 horsepower. They deliver hard-working performance with gas-engine convenience.

**Diesel:** With 24.5 horsepower, the three-cylinder engine in our diesel models delivers a flatter horsepower and torque curve for performance you can feel. And because the engine is under 25 horsepower, it does not require a diesel particulate filter (DPF), which means no regeneration.

Machine: UV34

### POWERFUL TOW RATING

The trailer hitch tongue weight rating is 250 pounds, giving you a powerful option for pulling heavy trailers and other equipment for the job. Tow up to 2,500 pounds with confidence.

### TRUE ALL-WHEEL DRIVE

Three selectable drive modes give you more versatility with easy, push-button control:

- Single-wheel (turf) drive allows wheels to turn at different rpm, reducing ground disturbance to protect grass and other finished surfaces.
- Two-wheel mode provides power to both rear wheels.
- All-wheel drive provides the ultimate in traction.

### TWO-RANGE TRANSMISSIONS

Low range provides maximum drive torque on hills, while towing heavy loads or when pushing snow. High range provides fast travel on hardpacked surfaces under light loads.

### INDEPENDENT FRONT AND REAR SUSPENSIONS WITH REAR SWAY BAR

UV34 and UV34XL vehicles offer excellent ride quality and handling – even when carrying or towing heavy loads. You can move through challenging jobs and improve your productivity without sacrificing ride quality, thanks to independent front and rear suspension geometry, forgiving shocks and springs, as well as strong drive components.

### VARIABLE SUSPENSION

The suspension can be adjusted to meet the demands of the job, improving load-carrying capacity for maximum towing and hauling performance.

### CUSTOMIZABLE TOP SPEED

On gas models, you can set the top speed to suit your working conditions – from 15 to 35 mph in five-minute increments. Increase the top speed to 40 mph with an optional speed kit.

Diesel models have a standard top speed of 35 mph. Based on safety and worksite requirements, top speeds can be reduced to 15 or 25 mph with an optional speed reduction kit.

Machine: UV34XL

### PRIMARY AND SECONDARY CLUTCHES

Primary and secondary clutches in Bobcat utility vehicles are matched to engine horsepower and torque curves for optimal drive performance in demanding applications.

- Operators experience smooth engagement and precise control at low travel speeds with strong belt engagement to minimize slippage. This makes hauling materials easy, and it provides a great experience for passengers.
- Controlled operating temperatures, plus careful alignment of the belt and clutch, allow for extended service intervals.

# COMFORTABLY TRAVERSE ANY CHALLENGE.

Comfort matters, and Bobcat utility vehicles give you a firm, capable ride quality to tackle the job with ease and confidence. Ample interior space, a tilt steering wheel, power steering and more enable you to ride out the most difficult jobs in premium comfort.

Machine: UV34XL

### ADAPTABLE CAB SYSTEM

Conveniently customize or upgrade to the optional enclosed cab with a wide range of configurations. Installation and removal of accessories are quick and simple. Cab sealing reduces dust and noise levels. The battery tender port helps maintain peak battery performance and life.

### SUPERB FIT AND FINISH

Your cab is where you conduct the day's work, and Bobcat utility vehicles are packed with automotive-style comforts and amenities.

- Ample legroom and footroom
- Plenty of in-cab storage, including a glove compartment and under-seat storage
- Three ports include a USB, 12-volt accessory plug and SAE charging port

## A FIRM, CAPABLE AND COMFORTABLE RIDE

The ride quality on Bobcat utility vehicles keeps you comfortable during a long day's work, but it's firm enough to tackle the job with ease and confidence.

### OPERATOR COMFORT

Step into the low, wide cab opening that's designed for easy entry and egress, and you'll experience a Bobcat utility vehicle interior that makes every minute of the job more enjoyable. The tilt steering wheel easily adjusts to a comfortable position that provides optimal legroom. The standard power steering provides easy, responsive control – which is especially valuable when loaded with cargo or towing trailers.

Sealing on the optional enclosed cab keeps operators and interior shielded from dust and debris, and it ensures optimal heating performance. When you're in the mood to enjoy the outdoors, the cab doors offer roll-down windows.

### ERGONOMIC CONTROLS

Controls are placed for ease of use. Large instrumentation and gauges are simple and easy to read.

### THREE-PASSENGER BENCH SEATING

The comfortable bench seat, with retractable three-point shoulder harnesses, easily accommodates you and up to two passengers. Choose the XL model for additional rear seating and enough room for an operator plus five passengers.

### MODULAR CAB DESIGN

Remove or reinstall doors and windows in minutes, and easily customize the flow of fresh air to match the job – or to work in any season.

### TILT AND POWER STEERING

The standard tilt steering wheel easily adjusts to a comfortable position for optimal legroom. The standard power steering provides easy, responsive control – which is especially valuable when loaded with cargo or towing trailers.

## DURABILITY

Machine: UV34

# IT'S UP FOR WHATEVER YOU'RE UP AGAINST.

Whether you use them for work or on your property, Bobcat utility vehicles provide commercial-grade durability you can rely on.

### PROVEN ENGINE DURABILITY

The engine in our gas utility vehicle features high-performance power for the job, and it's designed for maximum durability against dust, debris and other harsh realities of the job.

Bobcat diesel utility vehicle engines are time-tested. This proven-reliable workhorse is the same engine that's used in our MT100 mini track loaders. The high-performance diesel engine is designed to excel in harsh and challenging working conditions.

### PROTECTED, INSIDE AND OUT

Standard machine protection includes:

- Skid plate to protect undercarriage, engine and transmission
- Constant velocity (CV) joints have CV boot guards to further protect from debris and punctures

### COMPOSITE CARGO BOX

A rock-solid, one-piece composite material design resists dents, scratches, rust and corrosion.

### CLEAN AIR INTAKES

Keeping your engine clean ensures maximum uptime. Air intakes throughout the vehicle give you consistent performance for long durations in demanding environments.

- Clean flow to the engine with an oversized air filter keeps air filters cleaner overall and extends service intervals.
- Air intakes to the clutch allow cool, clean and dry airflow, minimizing dust and moisture, reducing component wear and tear, and preventing belt slippage for optimized vehicle performance.
- Air intake locations for the engine and clutches are carefully engineered to draw the cleanest, coolest, highest-quality air possible, even when operating in dirty, demanding environments.

# VERSATILITY

Machine: UV34

## STAY EQUIPPED FOR ANY SITUATION.

The name “utility vehicle” says it all. You want this machine to be utilized, and Bobcat utility vehicles earn their keep on countless jobs.

### 900-WATT STATOR (GAS)

The large, 900-watt dual stator provides a generous 75 amps of output for use with electric-powered accessories.

### HIGH-OUTPUT ALTERNATOR (DIESEL)

A standard high-output alternator with a 140-amp peak provides generous power for high-demand attachments, electronic features and accessories.

### LARGE CARGO BOX WITH ASSISTED OR POWERED LIFT

You can handle up to 1,250 pounds of supplies and materials in one of the industry’s largest cargo boxes with a volume of 15.6 cubic feet – or carry pallets and large, heavy objects. A convenient, single-latch tailgate secures your load and allows for odd-shaped cargo and easy loading and dumping.

Integrated tie-downs and anchor points and the ability to add box dividers and extenders allow flexibility for whatever cargo you carry. A cylinder-assisted cargo box lift (or optional powered lift) allows for quick, easy dumping.

## EASY OPERATION FOR HARD WORK

Bobcat utility vehicles keep you driving forward through a full day’s work.

Machine: UV34XL

### ALL-WHEEL DRIVE

When you’re in two-wheel mode, you can shift to all-wheel drive on the fly, right from the cab, with the push of a button.

### EASY STARTING IN ALL WEATHER

Electronic fuel injection gives you the best starting performance in every season. Automatic glow plugs in all diesel models warm the engine – so cold-weather startups are simple.

### INTUITIVE CONTROLS AND INSTRUMENTATION

- Large controls and gauges are easy to use and see.
- The LCD instrument panel displays information you need to operate productively.
- Warning lights alert operators of potential issues.

# YOU ARE UNIQUE, AND SO IS YOUR UTILITY VEHICLE.

A wide variety of options lets you customize your Bobcat utility vehicle for the jobs you do.

## ADAPTABLE CAB SYSTEM

Conveniently customize or upgrade the optional enclosed cab with limitless configurations.

## DOOR OPTIONS

The optional deluxe door features a roll-down glass window. A clear door option features all-poly construction for optimal protection from dust, debris and the elements.

## INDIVIDUAL ACCESSORIES

Customize your vehicle with a wide range of easy-to-secure accessories – from tool holders and cargo box dividers to job-matched add-ons like the chainsaw rack.

## TIRE VERSATILITY

Adapt traction to terrain by picking mud, hard surface or turf tires.

**CUSTOMIZE YOUR UTILITY VEHICLE.**

# CUSTOMIZE YOUR UTV WITH ACCESSORY PACKAGES.

Bobcat accessory packages equip you for every challenge and adventure with tailored upgrades for your Bobcat utility vehicle. Whether you're running your weekend at full throttle or gearing up for your daily grind, these accessories are built for real life and real work.

Machine: UV34XL  
Limited Package

## CHOOSE FROM THREE PACKAGES.

### SPORT PACKAGE

For those who demand more from their ride, the Sport package combines rugged performance and striking style.

- Brush guards
- LED lighting
- Half doors
- Running boards
- Tip-out windshield
- Poly rear windshield
- Winch

### PREMIUM PACKAGE

Get a perfect balance of durability and comfort. The Premium package upgrades make you equally prepared for long hauls and lively rides on the trail.

- Brush guards
- LED lighting
- Factory-installed cab and heat
- Running boards
- Headliner

### LIMITED PACKAGE

The Limited package provides an all-access pass to premium capability and custom-styled personality. It's packed with essential upgrades, from work lights to added storage.

- Brush guards
- LED lighting
- Bed box
- Tip-out windshield
- Work lights
- Rear sliding windshield
- Winch

**UPTIME**

# MAINTENANCE MADE EASY

With simple maintenance, you get more time to do the work or enjoy the ride.

Machine: UV34

## **EASY-TO-FIND COMPONENTS AND CHECKS**

The conveniently located fuel tank, engine compartment and battery, plus easy-to-find daily checks – like engine oil and air filter – make maintenance easy.

## **EXTENDED SERVICE INTERVALS**

Replace the engine oil and filter every 50 hours or 500 miles on gas models or change every 100-200 hours (or every 6 months) on the diesel models, depending on oil type.

## **SERVICE CODE AND WARNING DISPLAY**

An easy-to-use LCD screen displays service codes to quickly identify issues.

## **LARGE HOOD ACCESS**

A large hood access provides panoramic serviceability for convenient fluid fills, as well as easy access for accessory installations and electrical connections.

## **FEW GREASE POINTS**

Maintenance-free suspension joints mean minimal grease points. This saves time on regular greasing.

## **ANYTIME ENGINE OIL CHECK**

Bobcat utility vehicles allow you to perform an oil check when the cargo box is down or loaded, making it easy to watch your oil level.

## **ACCESSIBLE AIR, OIL AND FUEL FILTER LOCATIONS**

Air, oil and fuel filter locations, easy-to-reach grease points, and convenient coolant and engine oil checks improve accessibility for quick oil changes and easy service.

## **SEALED ELECTRICAL ACCESSORY CONNECTION**

Sealed electrical accessory connections provide trouble-free electrical performance for work, and simple electrical connections when installing accessories.
